Allowable Subject Matter

1. Claim 1, 3-12 allowed.

EXAMINER'S AMENDMENT

2. The application has been amended as follows:

Claim 1, line 7: the word "than" should be replaced with "then" to correct the spelling.

3. The following is an examiner's statement of reasons for allowance:

- a. Applicant amended claim 1 and the previous 35 USC 112 rejection over claims 1 and 3-12 is withdrawn.
- b. Applicant submitted a 1.132 Declaration which overcomes the previous 35 USC 103 rejection over Worley (US 2003/0054141) in view of Zuckerman (US 6,660,667) and Holdridge (US 4,462,390). The declaration submits evidence that the phase change material in a liquid state is mixed into a liquid component of the elastomeric material and then the cross-linking agent is added, whereby the cross-linking agent cross-links the phase change material into the structure of the elastomeric material and the membrane material becomes more translucent when the phase change material changes from its solid into its liquid stage during absorption of latent heat. This structure and the resultant property is not found in the prior art references and would not be obvious over the prior art references.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
